Backend & Databases: Node.js, Express.js, MongoDB, SQL

Digital Marketing: Search Engine Optimization (SEO), Search Engine Marketing (SEM), Meta Ads, Email Marketing

Developer Tools: Git, GitHub

Projects

PERSONAL PORTFOLIO WEBSITE | *React.js* | *GSAP* | *Vite*

- Created a modern portfolio with glass morphism UI, custom cursor effects, and responsive design for optimal viewing across all devices.
- Implemented GSAP-powered loading animations and scroll reveals to deliver engaging user interactions and smooth visual transitions.
- Integrated Web3Forms API for contact functionality with real-time form validation and user feedback messaging.
- Optimized build process using Vite, resulting in fast load times and improved Core Web Vitals for better user experience.
- Deployed on Vercel with automated CI/CD pipeline connected to GitHub for seamless updates.

Shoe Business Catalog Website | *WordPress*, *UI Design*

- Designed and launched a multi-page WordPress website to showcase a footwear collection, focusing on a clean and professional layout.
- Created a structured product gallery with clear descriptions and categories, making it easy for users to browse different shoe styles.
- Customized the website's visual elements, including menus, buttons, and headers, to create a consistent brand identity for the business.
- Ensured the website is fully responsive, providing a smooth browsing experience for customers on both mobile phones and desktops.
